## EXPERIENCE

---

### Zumiez

*Data Engineer*

**September 2018 – Present**

*Lynnwood, WA*

**Technologies: SQL • Snowflake • Python • Dell Boomi • SSRS • RESTful Web Services • Domo • VBA**

- Developed and maintained ETL pipelines for internal business units as well as third party vendors using Boomi, SQL and REST API's.
- Designed data pipelines to ingest transactional and shipping data from 8 primary data sources into a centralized data warehouse using Snowflake and Boomi.
- Part of the "Team of the Year" in 2022 by migrating legacy data integrations from SSIS to Boomi to support the upgrade of one of our most important and complex e-commerce applications.
- Leader of the "Project of the Year" in 2022 by working cross-functionally with different business units to create 3 new revenue streams leading to \$2.7M in total sales for the year.
- Created data pipelines from disparate sources to support multiple BI tools including Excel, Domo and SSRS.
- Recreated and optimized our existing rewards program to drive sales and incentivize brand loyalty using T-SQL, Boomi and third party REST API's.
- Designed and implemented new data applications using Python, Snowflake and Streamlit.

### Rain City Websites

*Web Developer*

**July 2020 – Present**

*Seattle, WA*

**Technologies: HTML • CSS • JavaScript • Node.js • Git • Webflow • Figma**

- Created static websites for small businesses using HTML, CSS and JavaScript, as well as CMS platforms like Webflow and Squarespace.
- Worked directly with designers to take finalized Figma designs to development following the latest industry standards.
- Utilized Netlify hosting to streamline website builds using Git which directly optimized the developer workflow and improved productivity.
- Developed with webflow to provide the client with a low-code website solution that could be updated directly without the help of a developer.

## EDUCATION

---

**Western Washington University**

*B.A. Computer Science*

**September 2012 – April 2018**

*Bellingham, WA*

## SKILLS & OTHER

---
